

Coil-Kote

Roll Covering Specifications

Coil-Kote is a proprietary trade name for Finzer Roller's unique elastomer series for Coating, Painting and Printing roll coverings. The Coil-Kote covering features high load bearing capacity in tension and compression applications which exhibit longer lasting rolls. This custom elastomer covering is ideally suited for printing, coating, decorating and painting of various substrates from steel to plywood.

Product Features

- High resistance to inks, coating solutions, paint coatings, cleaning solutions and oils
- Stable hardnesses
- Excellent resistance to compression set
- Easy machinability, capable of achieving extremely smooth surfaces
- Low porosity for easy cleaning and reduced coating usage
- Less swell which reduces heat buildup and premature wear

Applications

- Applicator Rolls
- Coating Rolls
- Metal & Plywood Coating Rolls
- Paint Line Rolls
- Printing Rolls

Technical Data

- Product: Premium proprietary blended roll covering
- Hardness: 40A – 60A
- Maximum Temperature: 175° F
- Chemical Resistance: Nonpolar solvents (oils), Ultraviolet inks, Enamel & Aqueous coatings
